Problem Statement:

Mr.Vellaisamy is a 55 year old man. He has low sugar and high blood pressure. He has a problem of forgetting things more easily.He needed to take injectable glucagon for lowsugar, and Enalpril,Ramipril for high bp over a scheduled period of time.It would be very dangerous if he forgets to use the medicine on time

- Mr. Vellaisamy Needs a daily reminder to remind to take medicines on time.
- Due to this, Mr. Vellaisamy has lot of health problems by forgetting to take medicine on time.
- He Needs a daily reminder to remind to take medicines on time.

I am	Mr. Vellaisamy, a 55 Year old man has low sugar and high blood pressure and likely to forget to take medicines on time
I'm trying to	Not to forget to take injectable glucagon for low sugar and enalapril,Ramipril for high bp
But,	I forget things easily and take nonexpert advice from others
Because	Due to lack of memory,it will my risk health if I forgot take my medicine on time
Which makes me feel	Worry about my health for careless of taking medicine due to lack of memory of remembering things

Problem Statement (PS)	I am	I'm trying to	But	Because	Which makes me feel
PS-1	Nobita	Remind me to take pills for my broken hand last week.	Forgetting to take medicine is common for me	I am suffering from dementia	Worry about my health recovery
PS-2	Oscar	Remind to take injectable glucagon for low sugar and enalapril,Ramipril for high bp	I forget things easily and nonexpert advice from others	Due to lack of memory,it will risk health of patient	Worry about patients health for careless of taking medicine due to lack of memory of remembering things
