

SPRINT - 1

Date	27 October 2022
Team ID	PNT2022TMID33439
Project Name	Personal Assistance for Seniors Who Are Self-Reliant.

Creating IBM Watson IOT Platform and device:

1. Creating Node-RED Service:

2. Creating Text to Speech Service:

The screenshot shows the IBM Cloud management interface for the Text to Speech service. The top navigation bar includes the IBM Cloud logo, a search bar, and user account information. The left sidebar lists management options: Manage, Getting started, Service credentials, Plan, and Connections. The main content area is titled 'Text to Speech-sv' and shows the service is 'Active'. It includes a 'Start by viewing the tutorial' section with links to 'Getting started tutorial' and 'API reference'. A 'Plan' section shows the current 'Lite' plan with an 'Upgrade' button. The 'Credentials' section displays the API key and URL, with options to download or show credentials.

3. Creating a Database in Cloudant DB:

The screenshot shows the Cloudant Databases management interface. The top navigation bar includes a 'Database name' dropdown, a 'Create Database' button, and a '300K' storage indicator. The left sidebar contains navigation icons and a 'Log Out' button. The main content area is titled 'Databases' and shows a table of existing databases. The table has columns for Name, Size, # of Docs, Partitioned, and Actions. Four databases are listed: 'scrivshul', 'noderechthht20221021', 'test', and 'test1'. Each database has a size, a number of documents, and a 'No' partitioned status. The 'Actions' column contains icons for creating, deleting, and refreshing the database.

Databases Database name Create Database 300K [Icons]

Your Databases

Name	Size	# of Docs	Partitioned	Actions
scrivshul	56 bytes	0	No	[Icons]
noderechthht20221021	30.7 KB	4	No	[Icons]
test	0 bytes	0	No	[Icons]
test1	88 bytes	1	No	[Icons]

Showing 1-4 of 4 databases. Databases per page 20 1
